Sample Message:
From: **End User Digest** <noreply-digest@lcboe.net>

Choose the option to allow the sender only if you are sure it is a legit email that you recognize.

Once you click allow, the following message will open in a new tab:

If you click the subject of a message, a new tab will appear showing your ProofPoint Inbox.

From this view, you can allow, block, or view more details about each quarantined message.
