Remove Account from Chromebook Laptop

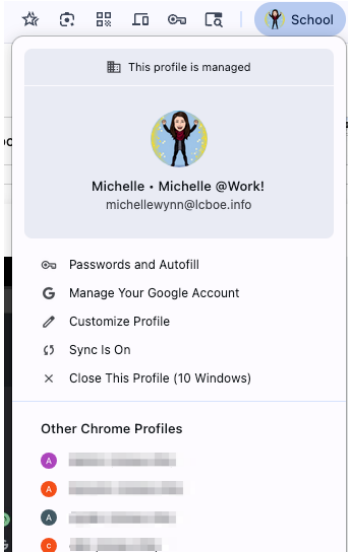

1. Log out of the device or reboot in order to get to the login screen.
2. Click the arrow next to your username, then click "Remove Account".

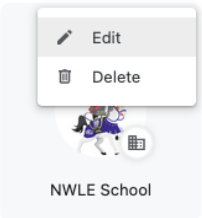

3. Now you can re-sign in using your current credentials, @lcboe.net

Remove Account from Chrome Browser

1. Click your profile icon in the top right corner of the browser.

2. Click "Manage Profiles" at the bottom of the list.
3. Locate your old .info profile.
4. Click the three dots in the top corner of the profile you need to remove it.

5. Click "Delete".
6. Next click the tile that says "Add" and sign back into your account using your .net credentials.
